NEXT-GENERATION
NAD+ SKIN BOOSTER

Advanced Cellular Renewal | Deep Rejuvenation | Anti-age Revolution

HANHEAL
NAD+ COMPLEX

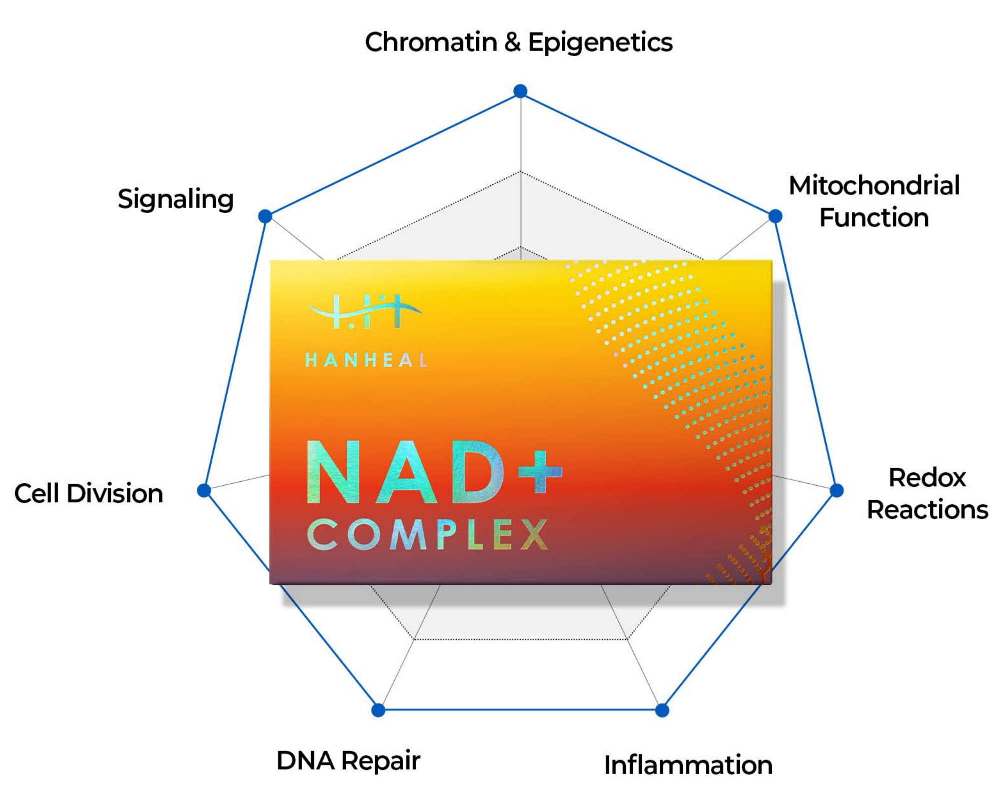
is a potent skin booster formulated with NAD+ (25%), NMN, Hyaluronic Acid, Peptides, and Collagen to revitalize cellular energy, boost collagen synthesis, and deeply hydrate. This synergy delivers visible anti-aging benefits, promotes overall skin health, and combats oxidative stress.

NAD+
COMPLEX
5mL
NAD+
COMPLEX
120mg

NAD+ ROLE

NAD+ is crucial for redox reactions and key enzymes like sirtuins (SIRT1, SIRT6) and PARPs, which govern DNA repair and cellular metabolism. Aging, chronic inflammation (“inflammaging”), and enzymes like CD38 deplete NAD+, diminishing collagen, elasticity, and renewal.

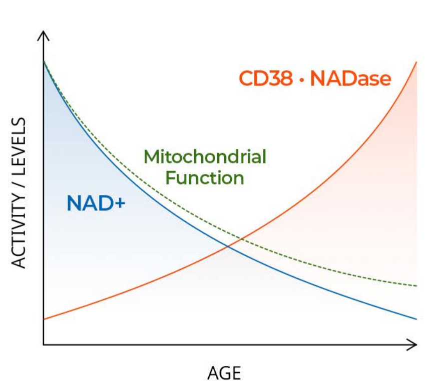
NAD+
Mechanism



BEFORE

Aging increases CD38/NADase activity, leading to NAD+ decline and mitochondrial dysfunction.

Aging	▲
CD38 · NADase	▲
NAD+	▼
Mitochondrial Function	▼



AFTER

HANHEAL with NAD+ and NMN restores NAD levels, enhance mitochondrial function, and slow down cellular aging.

NAD+ COMPLEX
Benefits

NAD+ & NMN

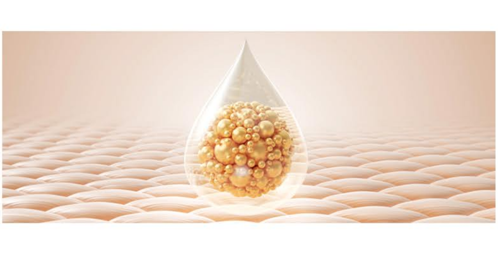
Support for mitochondrial function and DNA restoration

Hyaluronic Acid

Deep hydration and enhanced elasticity

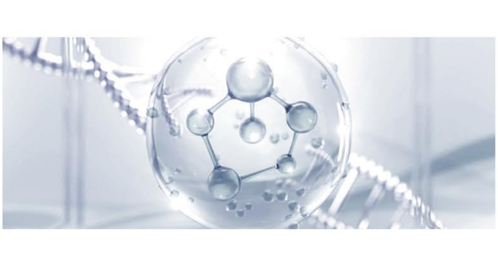
Glutathione

Potent antioxidant defense and brightening



Vitamin C

Collagen support and tone correction



Niacinamide

Balanced complexion and barrier strengthening

Peptides & Collagen

Elasticity boost and wrinkle reduction

Application
& Results

NAD+
COMPLEX
120mg

Ideal for ✓

- Individuals seeking to prevent or address early signs of aging
- Dry, rough, or dull skin needing revitalization
- Loss of elasticity, uneven tone, or dark spots

Expected Results

- Enhanced firmness and reduced wrinkles
- Improved hydration and moisture retention
- Protection against oxidative stress and inflammation

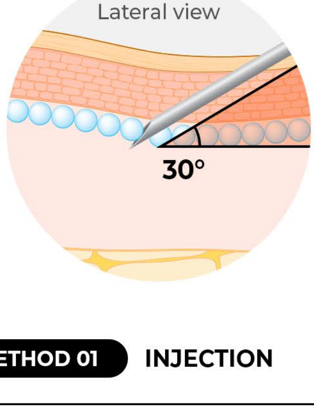
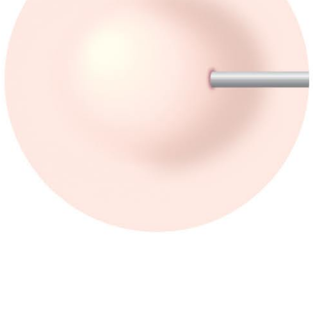
Administration
Protocol

PROCEDURE PREPARATION

1. Open the aluminum cap and remove the rubber stopper from the Solvent and Dry Ampoules.
2. Add the NAD+ Solvent Ampoule to the NAD+ Dry Ampoule.
3. Mix gently until the solution is fully dissolved.
4. Ensure the skin is cleansed before application.

WORK PROTOCOL





METHOD 01 INJECTION

Depth	0.5–2 mm into the dermis (approx. 30° angle)
Technique	Micropapular, Nappage (maintain 1 cm spacing between injection points for even distribution).
Needle size	30–32G 4–6 mm
Amount	0.01–0.05 mL
Frequency	3 sessions, spaced 1–2 weeks apart; maintenance every 3–6 months.
Pain Management	A topical numbing cream (e.g., lidocaine) may be applied to minimize discomfort.

METHOD 02 DERMAROLLER

Needle Length	0.25–0.5 mm
Frequency	5 sessions, spaced 1–2 weeks apart; maintenance every 3–6 months.
Application	Apply the reconstituted solution to cleansed skin; use the dermaroller to enhance absorption and stimulate collagen.

TOTAL RECOMMENDED VOLUME PER SESSION

Face only	Face + Neck + Décolleté
2–3 mL	4–5 mL

Adjust total volume based on patient needs and treatment area.

※ **IMPORTANT** : *NOT for intravenous or intramuscular use.*

SAFETY & BEST PRACTICES

- Mild redness or swelling may occur, typically subsiding within hours.
- Bruising or sensitivity can appear at the injection site, often resolving within a few days.
- Avoid applying strong active skincare (e.g., retinol, AHA/BHA) immediately post-treatment.
- Protect treated areas from direct sunlight.
- Consult a specialist if any adverse reactions (excessive erythema, severe itching) persist or worsen.

Important Precautions ⓘ

- DO NOT inject intravenously or intramuscularly.
- Avoid alcohol, smoking, and sauna for at least 24 hours post-treatment.
- Always consult a specialist if unexpected side effects occur.

Contraindications ⊘

- Eczema, wounds, or dermatitis in the treatment area.
- Individual intolerance or hypersensitivity to any components.
- Pregnancy or lactation (consult a healthcare professional).
- Autoimmune diseases or uncontrolled diabetes (medical clearance recommended).
- Active infections or acute skin conditions.

Specification

Product name	HANHEAL NAD+ COMPLEX
Package	Dry Ampoule 120 mg x 1 vial, Solvent Ampoule 5 mL x 1 vial
Storage	Store at room temperature(1-30°C) protected from direct sunlight and freezing.
Expiration date	24 months from date of manufacture. Check the box for the expiration date.
Usage	Reconstitute immediately before use.
Composition	[Dry Ampoule] Sodium Hyaluronate, Nicotinamide Adenine Dinucleotide (25%). [Solvent Ampoule] Water, Sodium Chloride, Nicotinamide Mononucleotide (0.01%), Panthenol, Collagen, Niacinamide, Tyrosine, Glycerin, Butylene Glycol, Propanediol, Ascorbic Acid, Glutathione, Sodium Hyaluronate Crosspolymer, Hydrolyzed Glycosaminoglycans, 1,2-Hexanediol, Sodium Hyaluronate, Soluble Proteoglycan, Benzyl Glycol, Copper Tripeptide-1, Hydrolyzed Hyaluronic Acid, Acetyl Hexapeptide-8, Ethylhexylglycerin, Hyaluronic Acid, Raspberry Ketone.
